

Melinda Than

Director of Events (Spring 2019)

Introduction: I am a third-year accounting student (previously human resource) and a first-time ALPFA member. During this past semester, I attended several events that either our chapter hosted or collaborated with. Through events such as Lunch with Professionals and ALPFamilia Day, I became more knowledgeable of not just the accounting industry, but how to develop myself as a young professional.

Qualifications: Ever since I switched to be a business major, I immersed myself through many professional development workshops through the SCPD. Although I only became more active in the Hispanic Student Business Association after a few semesters, I have built rapport and relationships with their directors and professionals. Through HSBA, I attended several community and social events such as Laker's event, Generosity Feeds, Audre Lorde Day of Service, Alumni Intro, Friendsgiving, and Ice Skating social.

Goals: As Director of Events, I would like to uphold the ALPFA mission to empower and develop CSULB students as leaders of character for the nation. Specifically, for our CSULB chapter, I believe that the more we strengthen the relationships between directors and members, the more we can collaborate and express new ideas on how to increase our professional and member networks. In order to further our commitments as future leaders, I wish to make community service events a priority, such as volunteering at beach clean ups, food banks, or charity events. In order to further our ALPFamilia values, I wish to make social events a second priority, such as food fundraisers, outdoor events, or clubbing events. Lastly, I wish to host a Corporate Mixer with professionals across different industries and companies.
