

ANTONIO VALDESPINO

TREASURER FALL 2019

Introduction

I transferred to CSULB in the spring of 2018 from long beach city college which is where I was first introduced to ALPFA. Switching from community college to the massive campus we have in long beach was difficult to adjust to at first, but I truthfully say that attending the ALPFA meetings helped make the transition a lot easier than I could have ever imagined. ALPFA has given me the opportunity to not only better develop my professional image but also build new friendships with like minded accounting students. I hope to continue being a part of the board as a the treasurer in the fall of 2019, so that I can continue to actively participate in the growth of the organization.

Qualifications & Vision

I am currently the Director of Operations and have been able to work closely with our current Treasurer Elia Taase. Along with the help of my chair Catherine Ham I have kept an attendance spreadsheet so that we not only keep a physical record of our members but also so that future DOD's can have a reference as to how many people they should be buying food for. Being the DOD allowed me to get a glimpse into what it takes to keep the organization running smoothly. Budgeting for events was the key factor to this being possible. I hope to become treasurer to continue building upon the consist growth I've seen over the last 2 semesters.
