

Daisy Delgado

Director of Development

Spring 2019

Introduction:

Hello ALPFA members, my name is Daisy Delgado. I am an Accounting major on my 4th semester at Cal State Long Beach. First, I would like to thank you for the opportunity to run for Director of Development of California State University, Long Beach ALPFA chapter for the Spring 2019 semester. Accepting the opportunity to run for Director of Development was not a difficult choice because of the passion I have for ALPFA's purpose and the way it continues to provide adequate services to the members of the organization.

ALPFA is more than just an organization, it is my *family*. I strongly believe the organization provides opportunities for students to make connections and create a network that will benefit their future and professional development. I want to be able to give back to the members of the organization and continue to enhance and develop the welcoming atmosphere that ALPFA provides to students. Professional development can be frightening and intimidating; however, ALPFA provides a safe space where students are able to thrive and build skills needed to reach their fullest potential.

Qualifications:

I have been working as a full-time Document Control Specialist for eight years in a small aerospace company in the City of Carson. I specialize in training the six company teams for the ISO and ASO yearly recertification audit amongst other daily tasks. I oversee the cohesiveness of the teams' function ability as a whole to be ready for audits and in turn conduct successful audits.

I have been a member of ALPFA for four semesters and I've been a part of the Events Committee, Marketing Committee and Fundraising Committee since Fall 2017. I am currently the Chair of Development, Co-chair of Marketing, and Co-chair of the Newsletter committee. I was nominated as March Member of the Month in the spring semester of 2018 for my commitment and dedication to the organization. I have also committed to helping the organization by volunteering in the Spring 2018 Regional Symposium and National Convention of 2018. As Chair of the Development, I gained first-hand experience in what it takes to be the Director of Development.

Goals & Vision:

As Director of Development, I want to continue making ALPFA the place where people feel like family while obtaining the tools of professional development. In addition, I look forward to preparing the members of the organization for the 2019 ALPFA National Convention. Furthermore, I want to propose a new community service that will teach members leadership skills. Lastly, I want to continue working with board members to find more effective and creative ways to fundraise and be able to support members that would like to attend the 2019 ALPFA National Convention.
