

Giovanni Hernández
Director of Operations
Fall 2019

Introduction:

Hello ALPFamília! My name is Giovanni Hernandez and I am thrilled to be running for Director of Operations for the Fall 2019 semester. I am an accounting major graduating Spring 2020. This is my first semester being part of this wonderful organization. At first, I was hesitant about joining ALPFA, but decided to give it a chance because all the great experiences my friends had during previous semesters. Through ALPFA I have gained a lot of information from the Speaking engagements and workshops that have been useful in furthering my professional development. I've also gained everlasting friendships that I would have not gained if I hadn't joined ALPFA. I hope to be given the opportunity to be the Director of Operations for Fall 2019.

Qualifications:

If elected, some of my attributes that will contribute to my success as Director of Operations, are that I'm great at time management and reliable. Working at my previous job I would arrive early and cover shifts and come in when the store was understaffed. These attributes of mine will help as I will need to get the food, set up the table and check in members. Also, when one of the board members needs help, I will be able to help them in a timely manner. I've seen what it takes to be Director of Operations and I believe I can accomplish those tasks given to me.

Goals & Vision:

If elected Director of Operations, I commit in completing all my necessary duties to the best of my abilities and also helping the other board members in achieving greatness. I have seen our current DoD, Antonio, choose great delicious food while being under the budget and keeping track of all the expenses. I plan to continue bringing in great delicious food while staying under budget, keeping track of the expenses and working with the future Treasurer so that our budget can improve every semester.
