FALL 2019

DIRECTOR OF OPERATIONS

About me

Hello ALPFAmilia! It is an honor to run as a candidate for Director of Operations in Fall 2019. Approximately a year and a half ago I transferred to California State University, Long Beach as an accounting major. Being a first generation college student I had no clue about recruiting nor about anything related to accounting. I knew that I wanted to become an accountant but I didn't know how to reach my goal. As a result of being a member of ALPFA I have been able to participate in the P.E.G. program and attend professional development workshops. ALPFA has allowed me gain access to various mentors and a network of professionals who have become fountains of knowledge, and an essential part of my professional development. These experiences have motivated me to run for a position on the board so I can give back to the organization that has helped me. I want to pass on my knowledge to current and incoming students, so we can all reach success.

Qualifications

As an owner of a startup, I have gained valuable skills that will allow me to easily transition into the role of Director of Operations. My startup has taught me how to effectively communicate with a diverse team to increase revenue and market share. I currently manage a community of over 200 members, 100 of which are current customers. I have learned to identify problems and implement development solutions within a short span of time, in order to increase customer sustainability and mitigate risk. These qualities and many more that I possess will allow me to flourish within the role as Director of Operations and as a supporting member to fellow board members.

Goals

During the summer I plan to work with the board and plan the entire following semester's food calendar. I am going to implement a diverse and inclusive meal calendar, in order to promote friendship amongst all the members and increase membership conversion. I plan to work with the Director of Development and Treasurer in order to subsidize or partially subsidize all food expenses. I also plan to support the board and the organization in anyway that I can, so all the members can have access to better opportunities meanwhile enjoying good food.
